Geographical Approaches we will be visiting this term: Places, Patterns and Communicate

What will I know about Coastlines by the end of this topic?

- Physical Geography: The location of beaches across England.
- Human and Physical Geography: Features of the beach/ seaside
- How sand is made
- How weather changes coastlines
- Mapping the beaches and seaside around England.

The Dorset and East Devon Coast World Heritage Site is more popularly known as the 'Jurassic Coast'. It is named this as the rocks and sand date back to the Jurassic age. An 86-mile stretch between Poole and Lyme Regis in the far west on the Devon boundary. This links the key gateways of the coastal path: towns and villages such as Bridport, Weymouth, Wool and Wareham.
